

ROOTT

ROOTT 

Meet intelligence solutions with

Direct scan

Time efficiency

No traditional impression, no need to install scan posts

Cost-efficiency

Less chair-time, no extra parts, scan bodies

Easy & smart

More convenience with less patient operations,
less components to handle

Prosthetic workflow

ROOT C CS

ROOTT **C**

Cement & telescopic retained

One-piece implant

Simple solution to bone atrophy

One-piece implant for more comfort and simplicity with a bendable neck for up to 15°. It ensures extreme time and cost-saving, which also comes with less complications and more patient acceptance.

Due to its thin design, excellent fit for narrow ridge and ensured safety due to the alveolar canal nerve bypass. Developed for single and multiple restorations.

Condensing thread

Avoiding inferior alveolar canal nerve

ROOTT C

Together with special condensing threads and embedded abutment with no microgaps, implant achieves excellent initial stability from the very beginning.

ROOTT^C

Significant time & cost saving

Immediate loadings

Excellent for narrow ridge

May avoid bone augmentation

Prosthetic variety

Cement retain with trimmable external platform, burnouts or cement-free option with patented telescopic abutments.
